©2016 Tong Ren Symposium – June 24-26, 2016 – Cambridge MA
Tong Ren Therapy Presenters

Tong Ren Healing System Founder and Developer Tom Tam

Tom Tam is a gifted healer, acupuncturist and innovator based in Boston, MA. He is the developer of the Tom Tam Healing System which utilizes acupuncture, energy healing and tui na for treating conditions which have proven to be difficult to treat by other methods. Tom has authored numerous books which explain his theories and techniques and has taught numerous students around the world.

Friday Night KeyNote

The Tong Ren Therapy energy healing technique which can be used by practitioners and lay people for self-help or to help heal others. Tong Ren Therapy is a part of the Tam Healing System is a system of acupuncture, bodywork, and healing based on both TCM and Western Medicine concepts as well as decades of clinical experience. Tom will be talking about the new developments and insights that he has discovered that is currently making Tong Ren Therapy popular world wide for both lay persons and professionals.

Gravity Wave Healing

Tong Ren Gravity Wave is a healing modality that works based on a few different scientific principles. By using a Tong Ren Wave Healing device, we apply the technique with the goal of eliminating blockages to increase circulation, which in turn treats whatever problem that may be present.

Weight Loss Demonstrations

Weight Loss with using the Tong Ren blockage theory - This session will be a demonstration of Tom's weight loss protocols. The belief is that excess weight is the result of blockages in your body. Not the result of lack of willpower.

©2016 Tong Ren Symposium – June 24-26, 2016 – Cambridge MA
Linking Tong Ren Therapy to the Breath: Ivan Pardo
It was a history of asthma in the Pardo family which convinced Ivan to try and find an effective, scientifically-based, drug-free solution to this problem. For more than 20 years Ivan had been studying alternative medicine; he trained in many energy therapies including becoming a Reiki Master, Tong Ren Therapy, EFT and Qi Gong. Over 50 years ago, Dr. Konstantin Buteyko discovery of the connection between hyperventilation and illnesses such as asthma, sleep apnea, cancer and more, provided an indisputable scientific answer to Ivan’s long years of research. Today Ivan has attained Buteyko Specialist Certification and is a member of BBEA, the Buteyko Breathing Educators Association, and Buteyko Clinic in Ireland. He also belongs to IACT, the International Association of Counselors and Therapists. Ivan offers individual classes, seminars, private consultations and readings both onsite or via the internet.

How to Get Well and Stay Well with Tong Ren Therapy and MORE! Sandra Schriefer
Making a Better Life is a challenge but possible. Sandra will share HOW she has brought about change of her own health challenges and WHY in her 11th Year of this ONGOING STUDY of Tong Ren Therapy. Sandra does 3 FREE conference calls each week on Tuesdays for the past 8 and is an active volunteer at several of Tom’s classes each week. Her vision is to create a Disease Free Planet. She has compiled techniques from many healing modalities, workshops and books. Her journey started in 1984 when her young son, Robbie was diagnosed with Friedreich's Ataxia, a debilitating, life-shortening, degenerative neuro-muscular disorder. This traumatic diagnosis set her on a personal journey/mission seeking answers first for her beloved son & surprised herself with beating her own health challenges and has guided and helped others to do the same. Health is a personal experience and Sandra treats the body, mind and spirit.
Animal Healing Therapy: Christine Taylor
From Tong Ren to Laser - many modalities can be used in animal healing therapy. Christine will talk about and show how she combines energy, body work, homeopathy, nutrition and herbs for addressing the health of the whole animal from emotions to physical. Christine Taylor, founder and owner of BodyKneads Muscle Therapy in Whitinsville, MA. She has studied many different modalities and focuses her practice on Human and Equine massage, laser therapy, fitness and flexibility, animal communication, and Tong Ren for both humans and all types of animals. She also teaches workshops in Equine massage, saddle fitting, stretching and pressure release techniques.
Concerned about chemical irritations to her horses and the safety of the ingredients that she was using she started making her own products. This has developed into Equinature, which distributes these products for others to use, throughout the country at many equestrian and pet stores.

Distant Healing Techniques and Applications: Transcending Time and Space: Kathy Wilson
Distance healing is healing energy "sent" across time and space that is received and has a healing effect on the recipient. Tong Ren Therapy is a ‘hands off’ energy therapy where the physical body is not touched. Via Tong Ren Station people can access healing sessions globally via their phone, web-link or pre-recordings. Results are showing us that time, distance or spaces make no difference in the healing process. Kathy will cover the practical application of how to do along with how to apply the non-physical phenomena of consciousness in a distance healing session. This will allow easier access for both the sender and the receiver into the waves of pure potential in the quantum field for successful healing sessions. This session will aid both practitioner and those in ‘dis-ease’ to achieve better results. Kathy’s focal point is harmonization of subtle energies for self empowerment and health.
Tong Ren Chakra Balancing (TRCB): Hayley Mermelstein
An innovative healing system which promotes healing on all levels.
Developed by Hayley, Tong Ren Chakra Balancing promotes healing physically, mentally, emotionally and spiritually. As chakra blockages are released the chakras balance themselves to allow the connection to our own inner light and all the healing energy that is around us. Tong Ren Chakra Balancing is an easy to learn healing system that can be a great addition to a Tong Ren treatment or can stand alone.

Hayley Mermelstein has an extensive background and training in the healing arts. Hayley has trained extensively in Chinese medicine, qi gong, shiatsu, meditation, herbal studies, Western nutrition, dietary counseling, anatomy and physiology, the psychology of healing and much more. Hayley is a graduate of The New England School of Acupuncture has been a licensed acupuncturist and energy healer for over ten years. She maintains a thriving practice in Amherst, MA.

Why Meditative Exercise is so Powerful for Maximizing Tong Ren Healing – Bob Grace

Tong Ren is based on a belief that disease is related to interruptions, or blockages, in the body's natural flow of chi, neural bioelectricity, blood, or hormones. Experience how Chi--Tong Ren bioelectricity--moves through your body, unblocking the blockage points that cause all illness. Bob Grace teaches Tai Chi Chuan and Chi Gong classes in Haverhill. He offers Tong Ren & Tui Na healing classes, as well as an energy healing class the 2nd Sunday of each month 9 am to 11 am, which allows you do energy healing to work on family and friends. Bob is also available for individual sessions.

He is the long-time director of Tom's Oriental Culture Institute and has a flourishing healing and martial arts practice in Tom's Haverhill center and in Bangor, Maine. He has been a student and associate of Master Tom Tam and active with the Oriental Culture Institute since 1986.
Tong Ren Healing for Animals: Anatomy and Physiology – Deborah Bilo Deborah will present the adaptation of Tong Ren Healing to the specific anatomy and physiology of animals. When Deborah became a Tong Ren Practitioner, she used her knowledge of animal anatomy and physiology to adapt the treatments to the illness, injuries, and syndromes common to specific species. She will also share some of the healing results that she has witnessed and experienced in her animal healing practice. In late 2014, Deborah spoke with Tom Tam about the possibility of starting a Tong Ren healing center in Florida and by April of 2015, Deborah and Joe packed up their belongings, their two corgis and made the move to Stuart Florida. In August of 2015, Trinity Harbor Healing: A Tong Ren Healing Center opened and began offering Tong Ren Healing in Southern Florida to both people and animals.

Reversing Cancer Naturally: Joe Lucier
Cancer is a Survival Mechanism of Nature and can be Reversed - Cancer is not a lack of chemotherapy, it is not a lack of radiation or surgery, it is a survival response to long term acidity, toxicity, deficiency and most importantly, oxygen deprivation to the cells. Along with a proper diet, Tong Ren Therapy has a unique way in approaching cancer in that it can address all of these factors with its focus on blockages on the bioelectricity of the Central Nervous System (CNS).

The material covered in this lecture is taken from Joe’s upcoming book Nature Creates and Cures Cancer Understanding Phase 1, an Immune System Problem, and Phase 2 Cancer, An Oxygen Problem.

Joseph Lucier AOBTA is a long time student of Asia, having a degree in Chinese Studies from Boston College. He also lived in Asia for over 15 years. Mr. Lucier is a Certified Licensed Medical Massage Therapist LMT AOBTA, Author, and has been a Tong Ren and Tui Na Therapist.
What is Tui Na? : Bell Tam
Tui Na is a hands-on technique focused on releasing pressure points. Tui Na, a Chinese medical massage has been used in China for more than 2,000 years. Tui Na therapy makes use of rhythmic compression techniques along different energy channels of the body to establish harmonious flow of Qi throughout the body and bringing it back to balance. It works deeply with the positive energy of the body. The technique of Tui Na, along with the methods in Acupuncture and Qi Gong Therapy have been incorporated into the Tom Tam Healing System to release physical blockages along the nervous system for healing. Bell will be speaking of the Tui Na technique and how it has been incorporated into the Tong Ren Therapy method. Bell is a licensed acupuncturist with 18 years of Tui Na experience. He learned at a young age studying with his mother and father: Lea Tam and Tom Tam. Bell runs an active practice, maintains the web presence for the Tong Ren Station, works closely with Tom accompanying him on his global seminars and continues with his studies in alternative therapies.

Animal Communication: Rachel Selikoff
Meet Mrs. Dr. Doolittle! Rachel hears all animals in English! Would you love to know what your pet is trying to tell you? Would you like to know why she/he is acting/behaving in such a challenging manner? This seminar is to facilitate this "communication connection" and will be interactive. It will show you how to increase your own animal communication skills. Rachel has been called “Mrs. Doctor Doolittle” by those who know her, as she always seems to recognize what the animals are saying and feeling. She counts over thirty years of animal experience with such as Cesar Milan: "The Dog Whisperer", Stan Addison: Arapahoe Nation Medicine Man and Horse Whisperer, National Arabian Horse Association, Panda Sanctuary in Chengdu, China, numerous police departments, ranches, adoption agencies, ASPCAs and individuals. She is the "go to" for Best of Breed Westminster Dog Show, Dr. Joan Borysenko. She can easily give helpful advice to aid owners with their communication challenges and their animals' behavioral issues.

©2016 Tong Ren Symposium – June 24-26, 2016 – Cambridge MA
How to do Tong Ren: Case Histories: Dr. Eleanor Marks & Felipe Ortega

Eyes, Ears and Everything Else: Dr. Eleanor Marks & Lynne Connolly

Felipe & Eleanor will focus on the How to of Tong Ren, along with the different techniques and methodology by bringing forward actual case histories they have worked with, Tong Ren application to cases, and time for those who have questions about personal issues and different cases you are concerned about.

Eleanor Marks (M.Ed., Harvard University, Ph.D., Boston University) has worked for Tom Tam since 2000. Tong Ren healed her life-long eye blockages, and Eleanor changed her career from academia to Tong Ren practitioner because she knows the Tom Tam Healing System will transform Western medicine, heal the world, and save our economy at the same time! Her husband is celebrating his fifth year healed from cancer--no chemo, no radiation--Tong Ren works! She practices full time and has always been interested in Healing the World and Healing People.

How to do Tong Ren: Case Histories Felipe Ortega is an Apache medicine man and Artist. Of Jicarilla Apache descent, and fluent in 12 languages, Felipe honors the ancient over 400 year old tradition of his ancestors working the mica rich clay indigenous to this region of New Mexico. Credited by many with reviving the art of the Apache Bean pot. He claims that he is the ‘fastest coiler in the west’, referring to the coil & scrape method he uses to build his beautiful micaceous clay pottery Felipe has been able to treat and defeat his stage 4 prostate cancer diagnosis, with a combination of Tong Ren, Tui Na, acupuncture, prayers and some western medicine has essentially made Felipe cancer free. Tong Ren healing sessions by Felipe at Apache Drums Community Social.
Eyes, Ears and Everything Else: Lynne Connolly & Dr. Eleanor Marks

Tong Ren Healing is used to treat all kinds of problems related to eyes, ears, emotions and any physical ailments, (cancer, autoimmune, metabolic, etc.) Here you will share with Eleanor and Lynne what they have experienced as a result of their own healing paths, as well as what they have learned from the participants in their own Tong Ren Healing Classes.

Lynne is a Licensed Massage Therapist (LMT) with over thirty years experience of full-time inspired and passionate healing using a variety of modalities, so she knows "Tong Ren is the best!" Lynne has worked for Tom Tam for over ten years and is the leader of our Tong Ren General Healing Class at 4 pm every Sunday at the Harvard Medical School Research Hospital, Spaulding Rehabilitation Hospital. She also leads the Tong Ren Healing Conference phone calls on Tuesday and Thursday nights. Lynne has experienced clinically significant healing of her eyes using Tong Ren.

“That was most helpful Vera. My pain and swelling after the fall is much improved. I love how amazing this Tong Ren tapping can be. You know it is your meditative focus and loving intention coming together to make it work for me—and my dog!

I'm not sure just anyone could do it the way you do! Thank-you.”

- Betsy (Physiotherapist)
Tong Ren Healing is an ONGOING STUDY, developed by Tom Tam from his Acupuncture Practice using the Collective Unconscious. Tong Ren is energy medicine restoring health and vitality based on the belief that ALL disease is about blockage/s in the body’s natural flow of CHI. Tong Ren seeks to remove this blockage/s restoring the body’s natural ability to heal itself by creating repair of the nucleus of the cells, the bio-electricity, even when illnesses are chronic debilitating or otherwise untreatable. Because no physical contact is involved or necessary Tong Ren is often practiced as distance healing.

In a typical therapy session, the Tong Ren Therapist uses a small anatomical model as an energetic representation of the patient, tapping on targeted points on the model with a light weight magnetic hammer. The therapist directs CHI to blockage points corresponding to the patient’s condition, opening the blockage at these points. As CHI flows, neural transmission and hormone reception are restored, the body is able to heal. When Eastern Energy Medicine & Western Medicine merge their technologies with Quantum Tong Ren Therapy as the BRIDGE, we will have put the CARE back in HEALTH CARE!

(BEYOND ACUPUNCTURE) is Acupuncture WITHOUT NEEDLES
Done in person, by phone & Skype for people & pets too!

Acustone Session with hot stones using the Tong Ren Energy Medicine System 1 hour $90

Tong Ren in combo with Tui Na each 15 minute increment $30
